To the class of 1967,

It has been an honor to have been closely associated with the class of 1967 and with the underclassmen of Uniontown High School during the past year.

I am happy to have this space in the yearbook to express my appreciation for the help you have all given in the successful launching of the new Unified District High School. I have been very pleased with the smoothness and the harmony which prevailed during this school year.

I wish continued success to our seniors in what ever field of endeavor they choose to enter.

Carl A. Otto

## *Dedication*

We, the 1967 Eagle Staff, dedicate this annual to Mr. Mosier to acknowledge our appreciation for the help and guidance he has given us in the preparation of the 1967 Eagle. We appreciate the patience and understanding he has shown in working with us, the students of Uniontown High School.

*Mr. and Miss VHS*

# ADMINISTRATION

#### CONGRATULATIONS!

It has been with the greatest of pride that I have viewed the progress of each of you during the school year. The spirit of cooperation, trust, and assistance of student to student, student to teacher, and student to the entire school effort is highly commendable.

At this time we are drawing close to the end of our first school year under unification, and with the fine spirit displayed by the students it has been a fine year.

I wish to emphasize to the seniors that graduation should be only the beginning, and I extend my hand to you and pray that your future will be blessed with happiness.

## Chapter 3 THE BEGINNINGS OF GOVERNMENT IN THE UNITED STATES

The roots of American government reach deep into the past. Our system of government did not suddenly spring into being as at the wave of some political magician's wand. Nor was it pulled out of thin air by the

**Our English Heritage.** The French, Spanish, Dutch, Norwegian, and other Europeans settled in parts of what was to become the United States. But it was the English who came in the largest numbers. And it was the English who came to control the thirteen colonies that stretched for 4,100 miles along the Atlantic seaboard.

These early pioneers who cleared the wilderness and fought off the Indians had to look out their own immediate future in the New World. But they came here in search of greater freedom

and they brought some of their political beliefs with them. The English had a long history of freedom and they had been working and developing in England for centuries of freedom.

Early Americans had to live together in harmony, or they would not have survived. This was called "government in order to live," the beginning of our government today.

**(1) The First Concept of Limited Government and Civil Liberties.** They brought with them, too, the twin ideas of limited government and civil liberties. That is, that government is limited in what it may do, and, separately, that it is limited in that sense

that each man has certain rights that government cannot injure or take away. These great principles of freedom were proclaimed in such historic English documents as the Magna Carta in 1215, the Petition of Right in 1628, and the Bill of Rights and the Act of Toleration of 1689.

**(2) The Concept of Representative Government.** A third, vitally important concept brought to America in English ships was that of representative government. For centuries there had been developing in England the
